PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4+ years of experience specialized in designing, architecting, and scaling high-traffic web platforms. Currently at **itti**, leading technical definitions across multidisciplinary teams and driving flagship projects such as the Umarket e-commerce storefront and backoffice. Core stack includes **React, Next.js (App Router), TypeScript, Tailwind CSS, and Zustand**, backed by strong expertise in monorepos (pnpm/Turborepo), multi-zone architectures, and **BFF layers (Node.js, Express, Zod, OpenAPI)**. Focused on end-to-end ownership, code quality, observability (New Relic, SonarQube), and Core Web Vitals / SEO optimization.

WORK EXPERIENCE

Senior Software Engineer — itti / ECWL

May 2026 – Present (Semi Senior: Sep 2025 – May 2026)

- **Multi-Zone Storefront Architecture (Umarket):** Technical leadership on the production e-commerce platform (Next.js App Router, React, TypeScript, Turborepo, Zustand), implementing independent zone deployments, feature flag management, and Core Web Vitals / SEO optimization.
- **Dynamic Collections Module (Super Admin Marketplace):** Architected and built end-to-end (~40+ reusable components, custom hooks, and services) the backoffice CRUD module featuring Algolia dynamic storefront previews and bulk CSV/PIM import pipelines.
- **BFF Architecture & Integration (Node/Express):** Designed and consumed strongly-typed endpoints with Zod/OpenAPI to orchestrate microservices (PIM, DAM, Marketing), implementing dual-running API strategies, Redis caching, and latency reduction.
- **Quality, Observability & Standards:** Defined unit and integration test coverage with Jest and Testing Library, proactive production monitoring via New Relic, code quality enforcement with SonarQube, and cross-team code reviews.

Frontend Software Engineer — Digital House

May 2022 – September 2025

- Developed accessible and responsive web interfaces for student and instructor portals using React, Next.js, TypeScript, Tailwind CSS, and Storybook.
- Built standardized reusable component libraries and integrated Slice Machine (Prismic) for dynamic CMS management.
- Managed application state using Zustand, handled GraphQL/REST API integrations with Zod validations, and configured micro frontends via Nginx.
- Implemented scalable unit testing with Jest & React Testing Library, monitored production errors using Sentry, and tracked user analytics via Segment.

TECHNICAL SKILLS

React **Next.js** **TypeScript** **JavaScript** **Tailwind CSS** **Node.js / Express** **Zustand** **Redux** **Material UI** **Zod** **Jest** **Testing Library** **Monorepos / Turborepo** **BFF / REST / GraphQL** **Algolia** **Git / Scrum**

EDUCATION

August 2023 – Present (In Progress)
Systems Analyst
Universidad de Palermo

2021 – 2022
Full-Stack Web Development Bootcamp
Digital House

LANGUAGES & SOFT SKILLS

English: B2 Level (First Certificate) - Professional Working Proficiency

Spanish: Native

Soft Skills: Teamwork, organization, critical thinking, adaptability, and strong work ethic.
