PROFESSIONAL SUMMARY

Semi Senior Frontend Developer specialized in building and maintaining scalable web applications, e-commerce platforms, and backoffice tools. With solid experience in **React, Next.js, TypeScript, and Tailwind CSS**, I excel in service orchestration via **BFF (Node.js/Express)**, multi-zone architectures in monorepos, and dynamic API consumption. Passionate about accessible UI design, collaborative teamwork in agile environments, and testing best practices to deliver robust, high-quality products.

WORK EXPERIENCE

Semi Senior Software Engineer — itti / ECWL

September 2025 – Present

- **E-commerce Storefront (Umarket):** Worked on a production multi-zone platform (Next.js App Router, React, TypeScript, Turborepo, Zustand). Implemented high-conversion flows (buy now, add to cart), content migration from Promotionals to Marketing BFF, API pagination, and SEO optimization.
- **Super Admin Marketplace (Backoffice):** Built the end-to-end *Dynamic Collections* module (Next.js, MUI, React Hook Form, Zod), featuring a storefront grid preview, condition builder using Algolia InstantSearch, and bulk CSV/PIM data import.
- **Backend for Frontend (BFF Node/Express):** Designed and consumed strongly-typed endpoints using Zod/OpenAPI, orchestrated microservices (PIM, DAM, Marketing), implemented Redis caching, structured logging with Pino/New Relic, and integration tests using Jest.

Frontend Software Engineer — Digital House

May 2022 – September 2025

- Developed accessible and responsive web interfaces for student and instructor portals using React, Next.js, TypeScript, Tailwind CSS, and Storybook.
- Built standardized reusable component libraries and integrated Slice Machine (Prismic) for dynamic CMS management.
- Managed application state using Zustand, handled GraphQL/REST API integrations with Zod validations, and configured micro frontends via Nginx.
- Implemented scalable unit testing with Jest & React Testing Library, monitored production errors using Sentry, and tracked user analytics via Segment.

TECHNICAL SKILLS

React **Next.js** **TypeScript** **JavaScript** **Tailwind CSS** **Node.js / Express** **Zustand** **Redux** **Material UI** **Zod** **Jest** **Testing Library** **Monorepos / Turborepo** **BFF / REST / GraphQL** **Algolia** **Git / Scrum**

EDUCATION

August 2023 – Present (In Progress)
Systems Analyst
Universidad de Palermo

2021 – 2022
Full-Stack Web Development Bootcamp
Digital House

LANGUAGES & SOFT SKILLS

English: B2 Level (First Certificate) - Professional Working Proficiency

Spanish: Native

Soft Skills: Teamwork, organization, critical thinking, adaptability, and strong work ethic.
